Jena Aging Meeting (JAM) 2018 in Jena, Germany - September 6-8, 2018
<http://www.leibniz-fli.de/jam2018>

Dear colleague

It is our great pleasure to invite you to register for the Jena Aging Meeting (JAM) 2018. The new JAM series is limited to 200 participants and focuses on basic mechanisms of aging. The two and a half day meeting brings together leading experts in the field and aims to foster intense discussions on new concepts and unpublished data.

Please find attached our **JAM poster**, which we would kindly ask you to forward to any interested colleagues. We would also ask you to encourage your junior scientists to submit abstracts for poster presentation. A number of abstracts will also be selected for short talks and travel stipends (**deadline April 15, 2018**). In addition, the selected abstract presenters will be invited to join a concept discussion (no slides) along with the invited speakers taking place on September 8th over a wine tasting at one of the best vineyards of the Saale/Unstrut region.

We think that this size of a meeting offers the best possibility for intensive interactions that is especially important for young scientists. We have also integrated a half-day seminar just before the meeting organised by junior scientists. This session (September 6th 9am-1pm) will include non-PI data presentation as well as special topics will be discussed with selected senior scientists, including career development and women in science.

The meeting registration of 300 Euro (early bird registration 250 Euro) covers full attendance of the meeting and includes the welcome reception on the first night and JAM-dinner & party on the second night as well as participation in the concept discussion of selected abstract presenters. We have reserved a limited number of rooms for the anticipated number of meeting attendees. Hotel and booking information can be found on our website. All hotels are located in the old town of Jena and are in walking distance to the meeting venue.

We are extremely excited about this meeting and very much hope you will join us in September 2018. We envision that this new style of a meeting on aging is required to bring out new concepts and ideas and to move the field forward.

Please feel free to contact us with any questions.

With our best regards,
Helen & Lenhard

Confirmed Speakers:

Johan Auwerx, LISP, Lausanne, CH
Vilhelm Bohr, NIA, NIH, Baltimore, USA
Michael Brand, CRTD, Dresden, DE
Anne Brunet, Stanford University, San Francisco, USA
Dmitry Bulavin, IRCAN, Nice, FR
Fabrizio d'Adda di Fagagna, IFOM, Milan, IT
Gerald de Haan, ERIBA, University Medical Center Groningen, Groningen, NL
Maria Ermolaeva, FLI, Jena, GER
Eric Gilson, IRCAN, Nice, FR
Vera Gorbunova, University of Rochester, Rochester, USA
Ian David Hickson, University of Copenhagen, Copenhagen, DK
Konrad Hochedlinger, Harvard University, Boston, USA
Jan Hoeijmakers, Erasmus University, Rotterdam, NL
Kristina Kirschner, University of Glasgow, Glasgow, UK
Pura Muñoz-Cánoves, Universitat Pompeu Fabra, Barcelona, ES
Francesco Neri, FLI, Jena, GER
Emmanuelle Passequé, Columbia University Medical Center, New York, USA
Michael Rape, UC Berkley, San Francisco, USA
John Sedivy, Brown University, Providence, USA
Jan van Deursen, Mayo Clinic, Rochester, USA
Eric Verdin, Buck Institute for Research on Aging, Novato, USA
