Θέμα: LibertyCon - conference in Belgrade - a great opportunity for students!
Συνημμένα: LibertyCon19.pdf

Hello ,

It is my great pleasure to inform you about our International Conference - **LibertyCon** - to be held at the Kolarac Concert Hall in Belgrade, on the 5-7th of April, 2019.

I believe that this conference can be of a great interest to your students and therefore I kindly ask you to share this invitation with them. Attached is the poster of the conference and [here](#) you can find more information on the speakers and topics that will be presented at the conference. We are happy to announce our first confirmed keynote speakers: Nassim Nicholas Taleb, Tom Palmer and Lawrence Reed.

This is the 9th continent-wide conference European Students For Liberty is organizing. The previous one, also held in Belgrade, Serbia, attracted more than **800 students from 45 countries**. Our theme this year is “**Freer Future**” and we will have several speeches on this topic including: political theory, practical political and economic questions, cryptocurrencies, privacy, security, and startups. These are questions for more than 40 economists, entrepreneurs, scientists, journalists, policy makers, experts in cryptocurrencies, and more. They are coming to Belgrade to share their knowledge, experience and vision. The great value of this conference is to network, to meet students from around the globe, all coming together to find ways of not repeating mistakes made in the past. There is a freer future waiting for us, let us talk on how to create it.

If your students are interested in attending please reach out to me and I can offer a **special discount** for your school.

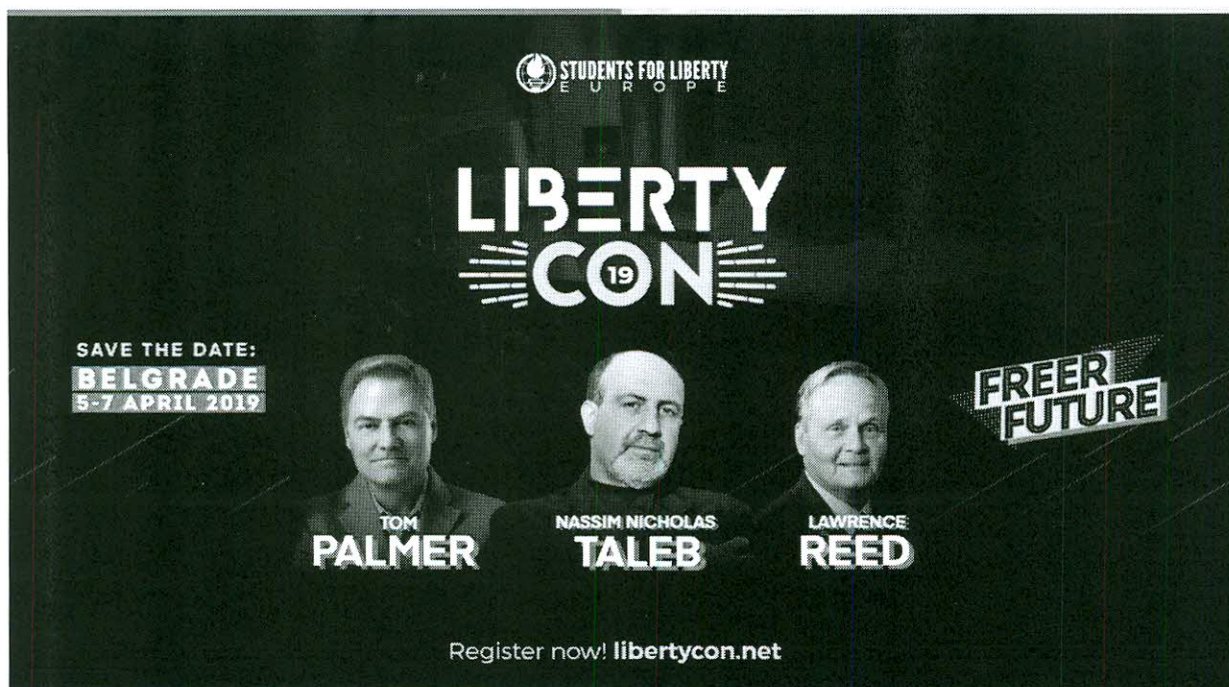

Looking forward to hearing back from you and let me know if you have any questions or concerns.

Best regards,
Beatriz Gietner

LibertyCon returns to Serbia.

European Students For Liberty are bringing LibertyCon Europe, their largest annual conference, to Serbia for the second year. This international event has been hosted in Leuven (Belgium), Berlin (Germany), and Prague (Czech Republic), and this year returns to Belgrade. In April 2018 LibertyCon Belgrade hosted over 750 participants from 50 different countries.

The year's theme "Freer Future" will cover a range of topics from political theory, practical political and economic questions, cryptocurrencies, privacy, security, and startups.

This is a great chance to meet students from all over Europe and to get some of our free books and publications to learn more about libertarian philosophy. The conference will be held between April 5-7 at the Ilija M. Kolarac Endowment building. Ticket price is 1000 RSD, and it can be bought online at <https://libertycon.net/>, or at the Kolarac ticket shop.

What does the ticket include?

- Access to the Conference and all side events;
- Meals and refreshments;
- 2 parties - Friday/Saturday;
- Picnic in cooperation with Kisobran team;
- Promo materials/swag;
- Certificate.

LibertyCon is a great opportunity to learn about the ideas of liberty, discuss many relevant topics and also to meet fantastic speakers from Europe and the United States.

The focus of this conference is not only on the lectures but also on networking. Other than the main program you will get a chance to attend some of the very dynamic workshops, and engage in speed networking where you can exchange contacts with over 100 people in just an hour.

Who are the speakers?

We are honored to announce our first 3 keynote speakers:

1. **Nassim Nicholas Taleb**, the author of the best seller *Black Swan*, will be in Serbia for the first time and will be speaking at LibertyCon on Saturday, 6th April.
2. **Lawrence Reed** – the President of the Foundation for Economic Education (FEE), an organisation that promotes free market economics.
3. Dr. **Tom G. Palmer**, vice president of the Atlas Network and author of the book *Peace, Love, Liberty*, which has been translated into Serbian.

Why LibertyCon?

LibertyCon has so far gathered together over 6,000 students from all around the world. If you want to learn more about cryptocurrencies, bitcoin, marijuana legalisation, data protection and how to become a successful entrepreneur, join us in Belgrade this April!

LibertyCon is a unique event where political ideas, entrepreneurial ideas, economy, and technology collide with freedom of expression, freedom of discussion, and art.

Join us in Belgrade in April - LibertyCon is back!
