Θέμα: #WeEuropeans: Get involved in the largest digital european consultation ever carried out !

Dear universities of Greece,

"**WeEuropeans**" is a civic and non-partisan campaign initiated by Make.org and Civico EUROPA. It is aiming at strengthening democracy and public debate before the European elections by inviting all the European citizens to participate in the **largest digital public consultation ever carried out in Europe**.

As a key university in Greece, **your student community's participation is a non-negligible value-added for us**. We'd be glad to count you as participants and partners. Also, we can provide you valuable teaching and analysis material.

Please find attached a more detailed presentation of WeEuropeans and procedure of partnership. As you will see, the commitment is not very demanding for an important initiative on a crucial topic. We strongly recommend you review it and see whether you could join us and engage your students. Other European universities already joined us.

Should you wish to be a part of WeEuropeans or should you have any questions, you and your staff can contact Leila Boukkalfa (lb@make.org / +33 6 82 10 61 16) and Gilbert Branchet (gb@make.org / +33 6 84 33 51 12), both copied in this email.

Best regards,
