	Department of Mathematics, National and Kapodistrian University of Athens		School of Applied Mathematical and Physical Sciences, National Technical University of Athens
	Department of Mathematics, Aristotle University of Thessaloniki		Department of Mathematics, University of Patras
	Department of Mathematics, University of Ioannina		Department of Mathematics and Applied Mathematics, University of Crete
	Department of Statistics, Athens University Economics and Business		Department of Mathematics, University of the Aegean
	Department of Mathematics, University of Thessaly		School of Science and Technology Hellenic Open University
	Department of Mathematics, University of Western Macedonia		

Second Announcement

The Hellenic Mathematical Society (HMS) was founded in 1918 with the main goal to further and encourage the study and research in Mathematics and its numerous applications, as well as the evolvement of Mathematical Education in Greece. Today, 104 years later, the HMS has more than 12.000 members and 40 regional branches across Greece.

Amongst the main objectives of the HMS are:

- the advancement of mathematics;
- the fostering of free exchange of information between mathematicians, scientists and the society at large;
- the substantial and continuous improvement of mathematical education and the advancement of general education;
- to inform Greek mathematicians on recent progress made in science and technology and offer them practical assistance in matters which may occur during their work at school.

The Second Congress of Greek Mathematicians aims to make Athens once more a city of reunion of all Greek Mathematicians living in Greece and abroad.

The programme of the Congress will cover all areas of theoretical and applied mathematics. It will host plenary lectures, invited lectures, and several sessions and mini-symposia tentatively in:

Algebra, Number Theory and Combinatorics, Analysis, Differential Equations, Foundations,

Philosophy of Mathematics, Geometry and Topology, History of Mathematics / Mathematics Education, Mathematics of Computer Science, Numerical Analysis and Scientific Computing, Probability, Statistics and Applications.

The official languages of the conference are English and Greek.

Invited Speakers

- Akrivis G., University of Ioannina,
- Alexakis Sp., University of Toronto
- Bertsimas D., Massachusetts Institute of Technology
- Chlouveraki M., University of Versailles-St Quentin
